

Appln. No. 10/047,187
Amd. dated June 11, 2007
Reply to Office Action of March 12, 2007

Amendments to the Drawings

Submit herewith is a replacement sheet for Figure 1 on which the correction required in Section 1 on page 2 of the Action has been made.

Enclosure: (1) Replacement Sheet

REMARKS

The Examiner's action dated march 12, 2007, has been received, and its contents carefully noted.

In response to the objection to the drawings, submitted herewith is a replacement sheet for Figure 1 containing the corrected label.

In response to the claim objections, all of the amendments suggested by the Examiner have been made, with the exception of item e. The text at claim 1, line 42 is intended to refer to corresponding spot power levels and corresponding base sample power levels. Therefore, for the sake of clarity, the two occurrences of the term "said" at claim 1, line 42 have been deleted. If the Examiner believes that "said" should remain in the claim at that point, line 42 could be revised as follows:

"corresponding ones of said spot power levels
into corresponding ones of said base".

If the Examiner believes that this is necessary in order to place claim 1 in proper form, he is authorized to make the change by Examiner's amendment.

In view of the amendments made to the drawing and claims and the above comments, it is submitted that the application should now be considered to be in *prima facie*

allowable condition and an early Notice of Allowance is accordingly requested.

If the above amendment should not now place the application in condition for allowance, the Examiner is invited to call undersigned counsel to resolve any remaining issues.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.
